## Valvoline Clean Tronic

Electrical contact cleaner  
Protects against rust and corrosion  
Penetrates and lubricates

### A Multi-Functional spray

Valvoline clean tronic is a multipurpose product which not only cleans, but also preserves and lubricates. Electrical contacts can become dirty and sticky which makes them less efficient. Valvoline clean tronic easily removes contaminants and protects at the same time inhibiting rust and corrosion. No need for more than one product to clean, protect and lubricate electrical contacts, Valvoline clean tronic does it all. Valvoline clean tronic can be used for both automotive and home equipment, including hi-fi and other musical equipment.

### Easy to use

Spray Valvoline clean tronic on electrical contacts, allow to penetrate, then wipe away dirt and corrosion. Reapply, and allow to dry for protection and lubrication. Carefully move the contact surfaces. Use the extension tube for pinpoint accuracy and inaccessible areas.
