Valvoline SynPower Power Steering Fluid

512/02

Valvoline Synpower Power Steering Fluid is a synthetic power steering fluid suitable as a special product for several car manufacturers. The product is meant for central hydraulic systems on passenger cars and trucks, power steering units, leveling systems, and even shock absorbers. The product offers improved viscosity/temperature characteristics in combination with high resistance against shearing. With that it is suitable for heavy duty use in systems with high temperatures up till 140°C. The fluid is recommended by several car manufacturers, like VW/Audi, DaimlerChrysler, and Opel.

The Valvoline SynPower Power Steering Fluid advantages:

- * **Synthetic PS Fluid:** Flows easily at high and low temperatures.
- * **Wear Protection:** Highly resistant against shearing.
- * **Multi Purpose use:** Suitable for power steering, leveling, shock absorbers, etc.
- * **Special product:** Product matches several OEM recommendations, like VW, DaimlerChrysler, Opel.
