

Product Information

Valvoline White Protection Spray

Universal lubricant and preservative

Valvoline White Protection Spray was developed for the protection and preservation of iron and aluminium cars' wheels against rust and corrosion. The product can also be used for other applications like; garden and household equipment, and for antennas, bolts and nuts, locks, batteries etc. Valvoline White Protection Spray is acid-free and is safe for rubber, plastics, paint etc.

Easy to use

Shake well before use.

Hold the aerosol spray can at a distance of 20-30 cm. from the object to be treated.

The product leaves a protective and water-resistant film that will give the object a longer life.
